Re: Additional passengers on School Bus – Highway Traffic Act rules

In reply to your inquiry about allowable number of passengers besides, to/from school students.

The Board may assign teachers, parents, volunteers to ride the bus as supervisors of the students on travel to and from school activities (*Highway Traffic Act regulations clause 13(1)*).

And, by revision dated October 6, 1994, the Board may approve 4 additional non-student passengers of any age denomination onto the bus at one time.

Please advise if further information is required.
