

SIEC
Saskatoon Industry
Education Council

*Connecting Schools, Youth and Industry through the
Saskatoon Industry-Education Council:*
**Career Development and Exploration Programming
And SaskCareers Development**

Mission Statement:

Our vision of the Saskatoon Industry Education Council is to create a community of **SHARED RESPONSIBILITY, preparing youth for quality careers.**

PARTNERS

- * 3 school divisions (Saskatoon Public Schools, Greater Saskatoon Catholic Schools, Prairie Spirit School Division)**
- * Saskatoon Tribal Council K – 12 Schools and Active Measures Program**
- * Community-based organizations**
- * Post-secondary institutions**
- * Provincial and federal government**
- * Industry associations**
- * Local business and employers**

Board of Directors – Chair: Bruce Bradshaw, Saskatoon Public Schools

Duties: responsible for setting the strategic direction of the SIEC

Composition: twenty-two (22) directors representing education, industry, and organizations/associations and two (4) members at large

Executive Committee

Duties: oversees the duties of the Executive Director, provides long range planning of the SIEC's activities & projects and supervises the financial activities of the SIEC

Composition: five (5) directors with at least two (2) members representing industry, associations and government and at least two (2) members representing education

Operations Committee

Duties: responsible for the execution of SIEC programs in the three school divisions and community based organizations.

Composition: representation from the three school divisions, community based organizations and provincial and federal government departments.

Executive Director – Janet Uchacz-Hart

Duties: responsible for the successful leadership and management of the Saskatoon Industry-Education Council according to the strategic direction set by the Board of Directors.

Program Coordinator Dorothy Van't Hof

Duties: oversees the planning, implementation, and evaluating SIEC projects and programs.

Event/Project Coordinator Amy Dugan

Duties: to assist the SIEC Executive Director and Projects Coordinator on facilitating events and programs.

Industry Liaison Megan Unrau

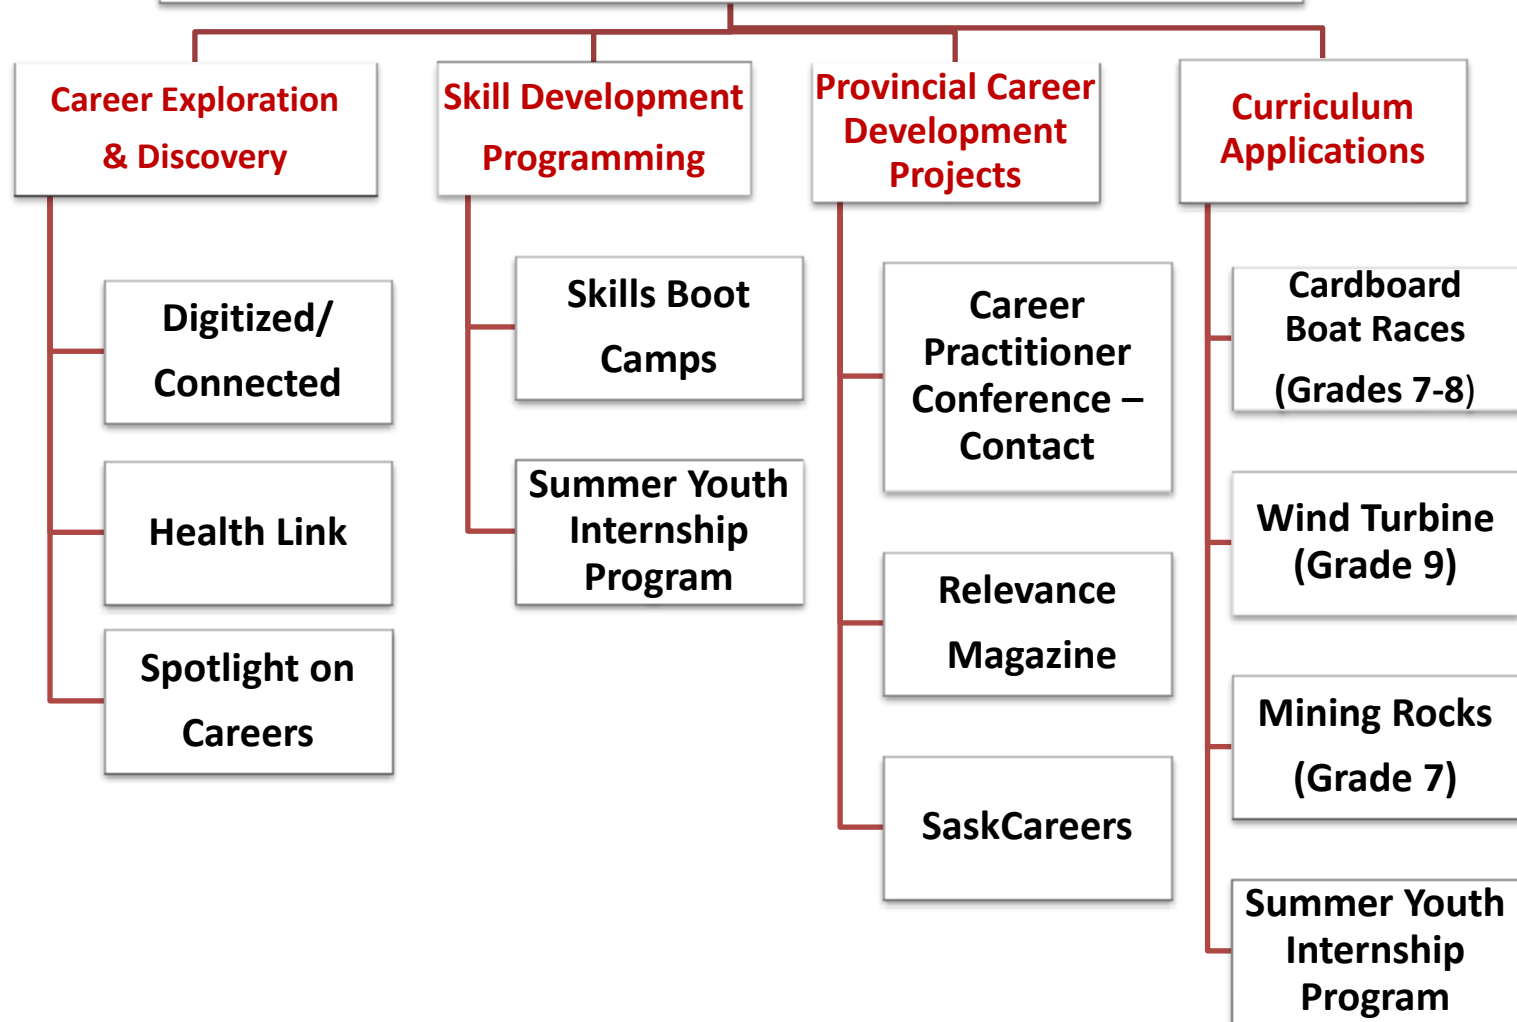

Duties: works with the school division on additional safety training and the development of skills boot camps. Other duties include working with employers on the futurepaths employer directory and other events including Spotlight on Careers and the Summer Youth Internship Program.

In 2012-2013 the SIEC worked with over **7,000** Youth, **800** Teachers/Career Practitioners, **280** Industry Representatives, **32** Programs & Events. On the strength of this community, the SIEC has become *the* conduit between students and industry in helping youth navigate through their career journey!

Saskatoon Industry Education-Council

Projects & Programs

CaRDBOaRD BOat RaCe CHaLLENGE

This project assists grade 7/8 teachers in teaching structure and design, science and math in a meaningful way. After receiving instruction through a 12 lessons (Science, Math and PPA curriculum), students build a boat out of cardboard, duct tape, and other specific materials; they then race their finished product! SIEC worked with over 2,280 students in 2014.

This one day event will focus on participants exploring all the different opportunities in the Saskatoon Health Region through workshops and hands-on activities. This is a partnership between the SIEC and the SHR. This is open to students in grades 10 and 11.

330 Students attended in 2014.

One day conference open to Grades 11 and 12s that highlights career information regarding careers in the IT sector.

Activities include hands on training, seminars, and workshops.

Digitized is run as a partnership with the U of S computer science department

350 students attended in 2014

A one day conference focusing on social networking and imaging open only to girls in grades 10 and 11.

Students participate in interactive workshops and listen to female speakers who are already successful within the industry.

Partnership with the U of S computer science department

40 students attended in 2013

21 Spotlights spread throughout the school year where youth, primarily in grades 11 and 12, experience both industry and educational opportunities in a field that is of interest to them. Youth visit various job sites and post-secondary institutions, giving them a glimpse into requirements in specific careers. They also engage in some hands on activities and listen to guest speakers who talk about their own career journey. Over 75 careers are highlighted. 900+ students attended spotlights in 2014.

- Media & Technology
- Aviation
- Nursing
- Therapies
- Pharmacy Technology & Nutrition
- Prep Cook & Hotel/Restaurant Administration
- Entrepreneurship & Business
- Emergency Services
- Health Science and Technology
- Medical Diagnostics
- Mining
- Computer Science & Technology
- Automotive Service Technology
- Engineering
- Mental Health
- Chemical Technology
- Bio Science
- Veterinary Technology & Medicine
- Construction/Manufacturing
- Primary Care/Paramedic Program
- Esthetics

Youth engage in boot camps that enable the participants to learn theoretical and practical skills that may be applied to a number of different careers.

2013-2014

- **Construction Skills Boot Camp**
(Saskatoon, One Arrow First Nation, Duck Lake)
- **Culinary Skills Boot Camp**
(Saskatoon, Martensville, Yellow Quill First Nations)
- **Automotive Skills Boot Camp**
(Saskatoon)
- **CERVUS Agricultural Machine Technician Boot Camp** (Saskatoon with John Deere)

PLUS NEW 2014-2015

- **Heavy Duty Mechanic** (Saskatoon with Frontier Peterbelt)
- **Information Communication Technology** (TBA)

Program
Sequencing
Example:

Grade 11 and 12 students interested in a career primarily in the trades participate in a 6-week paid internship over the summer months. Staff includes: job coaches and teacher to facilitate credit program.

Participating students can receive (based on their placement):

- Two or more high school credits (Apprenticeship 20A, 20B, 30A, 30B)
1 credit per 100 hours
- Assistance in completing the Saskatchewan Youth Apprenticeship Program.
- All safety training needed: Saskatchewan Construction Orientation Training, Fall Protection Awareness Training, Food Safe

2013 SYIP program had over 90 youth and 59 companies involved!

2014 already as 77 companies with the opportunity for 120 youth engaged in the workforce.

70,000 copies to schools (provincial and First Nations communities, post-secondary, community based organizations, etc. On a yearly basis. Online version is www.relevancemag.ca

Trades, Transport and Equipment Operation

7315	Aircraft Mechanics and Aircraft Inspectors	305	Your job will be to repair and inspect all types of aircraft and avionic systems.	\$64,400	SATCC, SIIT	 	☆☆
7321	Automotive Service Technicians, Truck Transport and Mechanics	4,500	In your career you will service and repair automobiles, light trucks and buses. Diagnostic, computer, and mechanical skills will be used.	\$53,700	Lakeland College, North West Regional College, Parkland College, SIAT	 	☆☆☆
7262	Boilermakers	85	Boilermakers make and assemble dust, gas, steam, oil, water or other liquid-tight containers, structures and equipment.	\$90,500	SATCC	 	☆☆☆☆

7414	Delivery and Courier Service Drivers	2,350	You will drive automobiles, vans and light trucks to pick up and deliver products. You may be required to have a Class 1A or Class 3A drivers license	\$36,100	Carlton Trail College, Cumberland College, Great Plains College, Lakeland College, Parkland College,		☆☆

SASKCAREERS is a one stop integrated site that would look after all their career planning needs for all Saskatchewan citizens from kindergarten until retirement.

- ✓ **Saskatchewan Labour Market information for sixteen industry sectors**
- ✓ **Career planning tools including assessments**
- ✓ **Access to a high school planner, occupational and post-secondary planner**
- ✓ **Responsive e-portfolio usage for every student in the province**
- ✓ **Employer information in your region**
- ✓ **Ability for education-industry partnerships to work collaboratively on opportunities in specific regions through events**
- ✓ **Access to resources for educators, career practitioners and parents**

Phase I – focus on youth from 13-29.

Managed by the SIEC and owned by all stakeholders in the province of Saskatchewan!

Construction

Imagine being able to drive past a building in your community, or a major industrial project that is getting national or international attention, and say, "I built that!"

Introduction

[Learn More](#)

[Career Opportunities](#)

Construction in both residential and commercial sectors is expanding, and the focus is now shifting to large resource based industrial and engineering projects.

The major challenge for Saskatchewan's construction industry is meeting the growing demand for new workers. This demand is driven by a surge in industrial and engineering construction activity. More and more people are coming back to Saskatchewan, new people are coming in, and the number of apprenticeship programs and other training initiatives is on the rise.

A career in the trade construction industry offers:

Respect: Skilled trades play an important role in our economy and society. The construction trade industry impacts almost every aspect of our lives. Saskatchewan depends on and needs the work of skilled tradespeople.

Career Opportunities: With over two hundred careers to choose from, the skilled trades offer something for everyone. As an apprentice, you receive post-secondary learning through on-the-job training. People skilled in the trades are in demand across the province. This demand will continue with the retirement of many workers from the baby boom generation.

Construction

Description

Computer Science is the theoretical study and practical application of computation, including such topics as: design and maintenance of software systems, distributed systems, human-computer interaction, computational modeling, artificial intelligence, mobile computing, programming languages, image processing, and computer graphics. The use of information technology in almost every corner of human activity continues to create opportunities for our graduates.

The Department of Computer Science offers comprehensive programs designed to prepare graduates for careers across all sectors of the information technology industry, as well as for graduate studies and research.
