# President's Message

---

Reflecting on this past year, I think we should all be very proud of the work that was undertaken and completed. The SSBA, along with significant leadership and engagement from member boards, senior staff and education partners, tackled some important things.

As partners involved in the co-construction of a vision and plan for education in the province beyond 2020, **Saskatchewan's 27 boards of education, with the support of the SSBA Education Visioning Working Advisory Group (WAG)**, conducted more than 300 engagements, connected with more than 10,500 people across the province and received more than 36,500 comments. This is essential work in helping to ensure education and investment in students is a priority for our province.

Also of note this year has been the work of the Student Transportation WAG and the General Insurance Plan Design Team. By bringing many partners together through these types of groups, we strengthen and broaden the perspectives and inputs into our work.

We continue to prioritize our work at the SSBA in three main categories – Services, Board Development and Advocacy. We undertake this work with considerable emphasis placed on engagement and relationships with our members, education partners and stakeholders. As a membership organization, we continue to focus on advancing our strategic priorities – priorities you, our members, have set forth. We work hard to be a strong voice for boards and for publicly funded education – advocating consistently and passionately on your behalf and offering services tailored to **our members' needs.**

A special thanks to the SSBA Executive and staff for all you do – and thank you to our members for your continued support of the SSBA and the work we do on behalf of boards of education.

A stylized, handwritten signature in black ink, appearing to read 'Shawn Davidson'.

Dr. Shawn Davidson  
President

# Advance Nominations

---

Position: Southern Constituency Representative  
Candidate Name: Shane Andrus  
Candidate Board: Chinook  
Nominator Name: Kim Pridmore  
Nominator Board: Chinook

Dr. Shane Andrus is honored to be nominated as a candidate for Southern Constituency Representative of the Saskatchewan School Boards Association. Shane serves as trustee with Chinook School Division #211. Since 2012 he has given leadership to the school board as Vice-Chair and Chair, served on various internal committees and the external Southwest Municipal Government Committee.

Professionally, Shane has served as an Ordained Minister for over 26 years, supporting a rural congregation. Additionally, he works in private practice as a Certified Professional Counsellor and part-time College Instructor. He instructs in both Divisions of Humanities and of Science & Health. In 2019 Shane was recognized as Instructor of the Year at Medicine Hat College.

Shane holds a Bachelor of Arts degree, Master of Arts degree, and Doctoral degree. It is however, public education that he especially feels he owes a debt of gratitude. It was public education that provided the pathway to life-long learning.

With his spouse of 20 years, Lois, Shane has been extensively involved in the community. In 2019 he celebrated being one of the founding members of the Burstall Community Hall Commission, which constructed a new integrated community complex, recognized by the Saskatchewan Parks & Recreation Association. He was Chair of the Burstall & District Fall Fair for two terms, Chair of two election forums, and a founding member of a regional food bank. **In 2014 he was Burstall's Citizen of the Year.**

For hobbies Shane enjoys swimming, riding a Kona trail bike, and walking their dogs – which includes a grumpy Chihuahua named Timbit. Shane is a Life-Time Member of the SPCA, from whom Timbit received assistance prior to adoption.

The SSBA **has been pivotal to Shane's positive experience as a Trustee. It has been** transformative in helping him find his voice of advocacy for public education.

Government of  
Saskatchewan

*The Honourable  
Gordon S. Wyant, Q.C.,  
Deputy Premier and  
Minister of Education*

On behalf of the Government of Saskatchewan, I would like to welcome all Saskatchewan School Boards Association (SSBA) members to the 2019 Fall General Assembly. Thank you to all trustees for your work and your dedication to the education of our children in Saskatchewan.

**This year's theme of Student Wellness and Mental Health** is an extremely important topic, not only for our children, but for this government as a whole. As Minister of Education, I am committed to working to ensure that our next generation of leaders is supported in all capacities. This includes being proactive and responsive as we support our young people both inside and outside of the classroom, as well as providing our educators, families and community members with the knowledge and resources they need to support the young people in their lives. By working together with all education and community partners, we can provide an **optimal future for all Saskatchewan's students.**

With that in mind, I would like to thank the SSBA for extending an invitation to our newly formed provincial Youth Council to present on the topic of student wellness and mental **health from the students' perspective. The 2019-20 Youth Council** is made up of high school students from across the province who are committed to empowering youth and making a positive impact in their communities. Having their voice and their viewpoints at this conference is incredibly valuable.

We are currently planning for the next 10 years of education in Saskatchewan by developing a provincial education plan for the 2020-21 school year. I would like to thank the SSBA and school boards across the province, along with our dedicated education planning partners, for their work in the public engagement sessions. We gathered valuable feedback from students, teachers, parents, staff and community members around the province. I know that we all have the same priority, which is to ensure the success and the best possible future for Saskatchewan students.

I look forward to attending the Association Banquet and Awards on Monday evening, and I wish you all the best for a great conference.

Canadian School  
Boards Association

*Laurie French,  
President*

Hello/Bonjour/She:kon

I am honoured to extend greetings to Trustee delegates and staff of the Saskatchewan School Boards Association for your 104th Fall General Assembly. SSBA and its members should be very proud of the work that you have done in the name of students to maintain local governance of public education to ensure ongoing student learning, achievement and wellness.

Saskatchewan has a well-deserved reputation for leadership in equity, due in no small part to the hard work and dedication of trustees. The ongoing collaboration with government and connection with partners in education are recognized and well respected throughout the country.

There has never been a more important time in Canada for cooperation and alliances among trustees, school boards and provincial associations. The future of public education depends on protecting local voices and doing everything in our power to regain democratic representation in areas where it has been lost or eroded.

SSBA is a strong leader at the CSBA table. Your President and Executive Director ensure that your interests are reflected in national priorities. They work with colleagues from across the country on your behalf to champion high quality education and to influence legislation and policies for the benefit of students. Together with the CSBA, we have the ability to continue to create safe and inclusive learning environments, and share in leading education practices.

I wish you a productive and successful Fall General Assembly and look forward to continued collaboration.

League of  
Educational  
Administrators,  
Directors and  
Superintendents

*Gwen Keith,  
President*

On behalf of LEADS, congratulations to the SSBA for focusing **this year's General Assembly on "Student Wellness / Mental Health"**. Attention to wellbeing can help increase the positive life chances of our **staff and students in Saskatchewan. I recognize the "edge making"** leadership of Good Spirit School Division for its pathways in school community health!

The purpose of LEADS is to promote leadership for excellence in education and to provide services and support to its members. LEADS, through working with stakeholders such as the SSBA, provides leadership to facilitate enhanced outcomes in academic, social, spiritual and personal development of all children and youth in Saskatchewan. Hopefully, this Fall Assembly will inspire further student voice and strategy for creating strong and healthy environments.

LEADS actively advocates for the wellbeing of children within publicly funded education systems. LEADS members work in partnership with trustees for the welfare of all our schools. Our best wishes to you for a successful Fall General Assembly!

Saskatchewan  
Association of  
School Business  
Officials

*Joel Lloyd,  
President*

On behalf of the Saskatchewan Association of School Business Officials (SASBO), I extend our best wishes to the Saskatchewan School Boards Association for a successful 2019 Fall General Assembly. Our association continues to benefit from our positive relationship with the SSBA, and we are appreciative for the opportunity to work with trustees on a number of provincial committees.

**SASBO's members are committed to supporting the success of Saskatchewan's children. We do this every day by supporting the** Boards of Education in a variety of often unseen ways. We ensure that our facilities are first rate and running efficiently, that our children are safely transported to and from school, that computer systems and other technology run seamlessly, and of course, that all employees receive their pay accurately and on time.

**The theme of "Student Wellness/Mental Health" reflects the** challenges some of our students and staff are experiencing in the sector. To achieve the goals of the Education Sector Strategic Plan, students need to be willing, ready, and able to learn. These supports are vital to ensure the wellness and long-term success of our students.

As pre-Kindergarten-Grade 12 education in our province continues to change, we are optimistic that the relationship between SSBA and SASBO will continue to benefit members of both associations, which ultimately benefits the students and families we serve – now and in the future.

Saskatchewan  
**Teachers'**  
Federation

*Patrick Maze,  
President*

**On behalf of the Saskatchewan Teachers' Federation and the** 13,500 teachers we represent, it is my pleasure to extend greetings and best wishes for your 104th Fall General Assembly.

The Federation is **proud to represent our province's teachers and** pleased to work along side partners like the Saskatchewan School Boards **Association to ensure the success of our province's teachers, students and** publicly funded education.

Public education is the foundation of strong, healthy communities. We know the quality and delivery of public education is an important issue to teaching professionals and to those outside the education system. Re-Imagine Education was a collaborative initiative that asked people to share their vision for education in Saskatchewan beyond 2020. Forums were held in 69 schools and 6,000 people participated in our online survey, including 400 pages of commentary. We also heard from more than 200 community groups and organizations, including those who are disengaged from the education system.

The future of public education in Saskatchewan is bright thanks to the tireless dedication and support of our teachers and partners. Communities, parents, students, teachers and community partners are engaged and interested in building a strong future for public education. We are eager to continue working with our partners, including the Saskatchewan School Boards Association, to implement Re-Imagine Education and ensure a high-standard of sustainable public education for every student in every corner of our province.

I wish you all the very best in the coming year and trust you will have a productive Fall General Assembly.

CUPE Sask.  
Education Workers  
Steering Committee

*Jackie Christianson,  
Chairperson*

The Education Workers Steering Committee exists under the umbrella of CUPE Saskatchewan. We represent over 7,000 education support workers across the province. Education support workers are employed by school divisions in many capacities. These workers range from caretakers, bus drivers and maintenance workers to education assistants, administrative assistants, library technicians, counselors and social workers. We are an integral part of the education system.

I am honoured to be the chairperson of the Education Workers Steering Committee. We, as Education support workers, are proud to be partners in education, along with the Ministry of Education, the Saskatchewan School Boards Association, and the Saskatchewan **Teachers Federation. I was pleased with this year's theme "Student Wellness/Mental Health". Each and every day, there are students that** struggle with mental health issues. As support workers, we are encouraged that their need has been acknowledged and will be discussed by our school divisions as the Fall Assembly provides a wonderful opportunity for partners to connect and engage in the common goal of providing for students in Saskatchewan.

Best wishes for a successful convention!

Service Employees  
International Union  
– SEIU-West

*Barbara Cape,  
President*

On behalf of Service Employees International Union – SEIU-West, I congratulate the Saskatchewan School Boards Association on their 104th annual assembly. This achievement comes in a climate of constant change leading to the evolution of our education system.

**The theme, “Student Wellness-Mental Health” is timely as** these conversations are well overdue. We need to bring mental health into the light; to discuss the stigma and illnesses that are very present in our homes, our classrooms, and our communities. Student wellness and mental health are inextricably tied to the wellness and mental health of the school staff.

Where we see budget cuts and loss of staff, our students and remaining staff feel that most keenly in the classroom and throughout the school. Where we see occupational health and safety issues, our students and staff also witness the violence and ongoing challenges within the school setting. The promise of unfettered access to education that our students should expect is no longer being met.

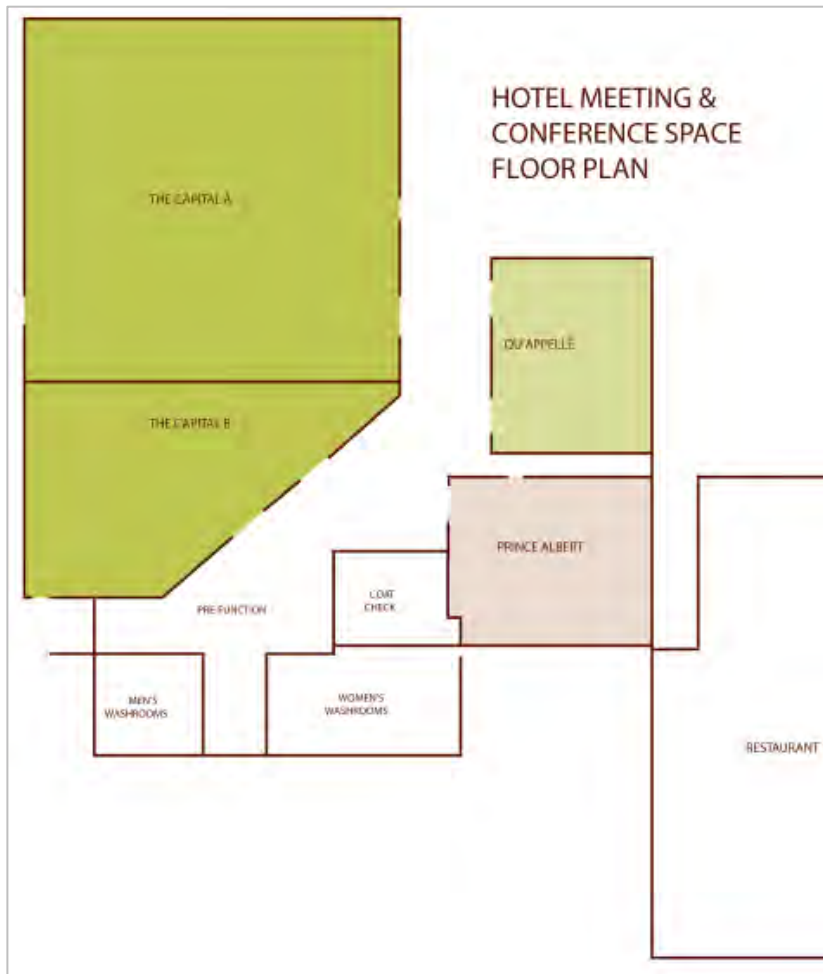

Staff, administration and students are truly connected in the common goal of success in the education system. And the various partners, allies and unions need to come together to be vocal advocates and champions for improved government investment into the education system. Whether its rural, urban or remote, we must partner together to create the environment where our school staff and students can succeed. This means additional funding to address infrastructure issues; improved safety and maintenance in the schools; more direct student and classroom supports; and adequate staffing to make this happen.

The pressures and external forces that impact our students and staff grow every year. We have the opportunity to understand and provide mechanisms to deal with these pressures. **Together let's build a true network of partners that will support the** incredible work of our staff to ensure the success of our students.
